CONFERENCE

MAXIMIZING THE BENEFITS OF *IN VITRO* - *IN SILICO* APPROACHES IN TOXICOLOGY & RISK ASSESSMENT IN AN EVER CHANGING DATA LANDSCAPE

North Carolina Biotechnology Center
Research Triangle Park, Durham, NC

TOPICS

- S1** Ontologies for interoperability of data in predictive toxicology, risk and safety assessment
- S2** Precision medicine and applications in predictive toxicology
- S3** Reproducibility of *in silico* analysis in predictive toxicology
- S4** Open data standards and data sharing principles for enabling predictive toxicology collaborations
